DINING

The food at Borneo Eagle Resort abides by a farm-to-table philosophy, in which the best of local produce takes pride of place. Organic fish and vegetables from the resort owner's farms on the mainland of Sabah feature on the menu, as do other fresh seasonal produce. Our team of skilled local chefs turn these celebrated ingredients into hearty, mouth watering dishes infused with Asian or Western flavours.

Being exclusive and small we emphasize on creating menus for the individual rather than the masses.

FACILITIES

Rather than you going to the spa, our therapists will visit you for in-room treatments. We offer a wide range of holistic wellness, rejuvenation and beauty treatments. We seek inspiration from nature and our signature treatment has its origins from the Volcanic soil of Pulau Tiga..

For guests who don't want to miss a workout while on vacation, the resort has a fitness centre with state-of-the-art cardio equipment, weight machines and functional training elements. Personal training sessions in yoga and Pilates can be arranged upon request.
