4 RESTAURANTS*

Here in Su Gologone you will find a culinary path made by traditional aromas and flavours, all waiting to be discovered, starting from the “farm to table” breakfast, with Oliena honey, Sardinian jams, cheese and cured meats from the area, local bread and cakes, taken out of the oven every day. The simple, rich scent of every lunch or dinner in the **Main Restaurant** won't be easily forgotten, such as the ones found in *maccarones de busa* and the *pane frattau*, or the typical suckling pig followed by the seadas with honey, a sweet ending of a memorable meal.

Whereas, hues of red distinguish a delightful space next to the swimming pool: the **Gazebo Bar and Restaurant** is the place to go for tasty salads, light snacks, fruit and veggies extract, or homemade ice creams. Here, even a dip in the pool fueled by the spring fall water, followed by a relaxing moments on a hammock in the shade and a take on unusual wooden games, become an unforgettable experience.

But surprises in Su Gologone do not end here: from May to September, every other nights you will discover our experiential restaurants*: The dinner in the **Nido del Pane** it's a real journey to the past: here you can watch how Sardinian women, dressed in typical Oliena traditional costumes, have been making bread for centuries. There will be a baking demonstration of different types of bread-based specialties followed by various tastings.

Moreover, what may look like a simple supper, turns out, in fact, to be a triumph of taste and delicacy: in the **Vegetable Garden** you will find juniper tables, adorned with colored chairs and linen runners, decorated with aromatic herbs, chilli peppers and small tomatoes. Enter the most genuine tastes, with local vegetarian specialties.
