

Long Beach is the most contemporary resort in Mauritius. Opened in April 2011, it brings carefree piazza-style living to the longest and widest stretch of white-sand coastline of any mauritian resort. Beyond the beach, the tropical lagoon, with its crystal clear blue waters and rare coral formations, is a snorkelling paradise.

The focus of the resort's layout and its life is the urban-style piazza with restaurants, shops and bars. Architecture brings tropical interpretations to contemporary urban themes, softened by natural forms, local detailing and materials. Buildings integrate with the resort's extensive lush tropical gardens. Long Beach also makes the most of sustainable building techniques and promotes green technology to support the environment.

Long Beach is Sun Resorts property, major Indian Ocean hotel group which also owns and operates Sugar Beach and La Pirogue, sister resorts on the west coast; and Leading Hotels of the World Le Touessrok on the east coast of Mauritius and Kanuhura in the Maldives.
